

AutoBurst Media Presents Season 5 of the Mobility Tech and Connectivity Show

NAPERVILLE, IL USA (August 26, 2019) -- AutoConversion, a multimedia network that features a variety of B2B programming for technology businesses, today announces that AutoBurst Media will be the exclusive presenting party for season five of the Mobility Tech & Connectivity Show.

The weekly show, which was first introduced in March 2018 and is hosted by CEO Ryan Gerardi, explores people, ideas, and technologies that influence how we are connected as a society, and the way we get around. It features different guests each week and some regular faces, as well. In fact, for season five, the show plans to include two occasional co-hosts - Terry Lancaster and Amanda Ryan.

AutoBurst Media is the official media production arm for AutoConversion which provides media, advertising, and technology solutions for B2B brands. The branch specializes in live streaming video production and podcasting. As the exclusive presenting party, AutoBurst Media stands to benefit as the sole brand behind the show. In previous seasons, AutoConversion used the show as advertising inventory for its pool of advertisers.

“This is a bold move on our part,” says Gerardi. “By aligning with AutoBurst Media as the exclusive presenting party, it changes the way we incorporate brands into our repertoire and it gives us a chance to grow this part of our business. AutoBurst Media is a young unknown entity in the mobility tech space. We hope to change that by making it the exclusive presenting party.”

Since its inception in 2018, the show has featured nearly 50 different guests ranging from PR figures and spokespersons to CEOs of numerous startups in the mobility tech and connectivity space. The show is conducted as a webinar from various locations where guests join remotely via video, which is then streamed live on the [AutoConversion YouTube channel](#), recorded, and featured on the [AutoConverse Mobility Tech & Connectivity Podcast](#).
